

Smart TOOL XL

Engineered for XL Trays

The Smart Tool XL is a larger variant of the proven Smart Tool, developed specifically for high-capacity denesting of oversized trays.

Designed exclusively for use with the Smart Buffer Servo XL, this tool accommodates tray sizes of up to 525 × 265 mm.

Quick Tray Change

Each Smart Tool XL is custom-built to match your exact tray dimensions, ensuring smooth and accurate denesting every time. The tool can be changed in less than one minute, keeping production downtime to an absolute minimum. This makes it ideal for operations with varying tray formats and strict efficiency demands.

Hygienic Design

Built for real-world food production, the Smart Tool XL features a patented open design that allows for thorough and efficient cleaning. Its construction supports strict hygiene requirements while maintaining consistent, high-speed operation. When larger tray formats are part of your product line, the Smart Tool XL is the clear solution.
