

Cleanline TOOL TWIN RACK

Built for Rack Integration

The Cleanline Tool Twin Rack is designed to integrate with the Cleanline Rack Air Twin, offering double-lane denesting in a compact footprint. This setup enables continuous tray supply with minimal space requirements - perfect for lines where flexibility, simplicity, and speed are essential.

Double the Capacity

Denesting up to 2×120 trays per minute, the twin-lane configuration delivers high-capacity performance while maintaining all the benefits of the standard Cleanline Tool. With few moving parts and a durable pneumatic system, it ensures maximum uptime and minimal service needs.

Compact & Hygienic Design

Built in stainless steel and designed for easy cleaning, this solution supports strict hygiene standards in food production. Whether you are scaling up or looking to streamline tray handling, the Cleanline Tool Twin Rack solution offers efficient, space-saving denesting without compromising reliability.
