

Smart TOOL FLATBOARD

Precise Flatboard Denesting

The Smart Tool Flatboard is a specialized version designed specifically to denest flatboards instead of trays. It runs at speeds up to 60 flatboards per minute, allowing you to use your Smart Rack equipment for a wider range of sustainable packaging types.

Custom-Fit & Easy to Switch

Like all Smart Tools, the Flatboard version is custom-made to match the exact dimensions of your flatboard. It can be replaced in under one minute, enabling you to switch packaging types quickly with minimal production downtime. Designed for flexibility, it supports a seamless transition between different flat board formats.

Hygienic Design

The open design of the Smart Tool Flatboard ensures thorough and efficient cleaning. Built to perform under real production conditions, it offers both hygiene and reliability while extending the capabilities of your existing Smart setup to accommodate modern, sustainable packaging solutions.
