

Cleanline TOOL SERVO RACK

Reliable Tray Denesting

The Cleanline Tool Servo Rack is your solution for denesting various types of trays. This electrical tool ensures swift and reliable denesting, optimizing your workflow with accurate processing of up to 200 trays per minute.

One-Minute Tool Change

Change between tray sizes or types in just one minute. The tool is tailored to work exclusively with the Cleanline Rack Servo, forming a compact, efficient solution that keeps your line flexible and your downtime minimal.

Hygienic & Low Maintenance

With stainless steel construction and few moving parts, the tool is built for hygienic environments and easy cleaning. Its low-maintenance design reduces operating costs while providing the safety, scalability, and reliability needed for sustainable production.
